Specimens received

3/17/71

Request: U

1. Compare the typewriting on Q1 and Qc2 and determine if prepared on same machine
2. Identify make of typewriter or typewriters used to prepare Q1 and Qc2
3. Compare typewriting on Q1 and Qc2 with typewriting in the EASTCON case

Result of examination: U

It was determined that the questioned typewriting on Q1 was not prepared on the typewriter used to prepare Qc2. The typewriter impressions on Q1 are very limited, however, they most closely resemble the Laboratory standards for Ransmeyer style of type which is used on many typewriters manufactured in Europe. The typewriter impressions on Qc2 most closely resemble the Laboratory standards for IBM Selectric style of type.

It was determined that the typewriter impressions on Q1 and Qc2 were not prepared with the typewriter samples previously submitted to the Laboratory in the EASTCON case.

Q48 Original envelope addressed to "Senator George McGovern"
postmarked 3-19, Princeton, New Jersey

Specimen Q33 received 3-23-70 from Washington Field Office

Q33 Original copy of Q33

Result of examination: U

The typewriter impressions on Q33 and other copies of this letter most closely resemble the Laboratory standards for Remington elite style of type which prints twelve characters per inch.

The paper, Q13 and Q14, is produced by the Minnesota Mining and Manufacturing Company for use in copying machines. It was further determined that these specimens were not prepared on the copier used in the preparation of Qc2, previously submitted in this case.

Due to the lack of sufficient identifying characteristics, it was not possible to determine whether the remaining specimens were or were not prepared on the copier used to prepare Qc2.

The questioned typewriting on Q33 was searched through the appropriate sections of the Anonymous Letter File without effecting an identification. No watermarks, indented writing of value or other marks which would indicate the immediate source of this material were noted on the submitted evidence. The stamps on Q48 are from a sheet of stamps.

It was not possible to determine the make of the typewriter ribbon used in the preparation of the questioned typewriting on Q33.

The submitted evidence is being sent to Buffalo with copies of this report. Photographs are retained.

On 3-22-71, [redacted] of the Department called and said that he had been contacted by Congressman Warren J. Mitchell (D-Md.) who thought that he had some documents which had been stolen from the FBI. U

Inspector [redacted] contacted Congressman Mitchell immediately at his office. Mitchell said that Friday afternoon he found two documents outside the door of his Baltimore office located in Room 1010, Federal Office Building. These documents consisted of a newspaper clipping regarding captioned case and the news release put out by the Citizen's Commission to Investigate the FBI. U

710323001

At approximately 1 p.m. on Sunday 3-21-71, he received a phone call at his home. He could not remember the exact conversation but thought he was asked if he would be at home and upon replying that he would be for the entire afternoon he was told that a package would be delivered to him involving the material he had received at his office Friday. Approximately one and one-half hours later his doorbell rang. Upon answering, no one was at his door but he found a brown envelope containing what appeared to be Xerox copies of several of the documents stolen on captioned case. The Congressman said he resides in a ghetto apartment, number 6, on the second floor and that there is no superintendent or other person who would have seen anyone coming to his apartment door. He recalled the voice on the telephone was female and that she had "good diction" but he could recall nothing distinctive and had no idea who the caller might have been. U

Congressman Mitchell said that he was an avowed supporter of Peace in Vietnam and had long supported actively Black civil rights programs and organizations. He assumed that this was the reason he was selected but felt that since these were copies, similar documents might be distributed to many other persons. U 8 08 W 11

M. A. Jones to Bishop Memo
RE: MEDBURG

b6
b7c

The Congressman did not have the brown envelope with him at his office but said it was still at his apartment in Baltimore; however, he was leaving for Pittsburgh today but would have the envelope at his office on Wednesday at which time it could be picked up. The Congressman said there would be no difficulty for these people to contact him since his telephone number is listed in the Baltimore directory. The Congressman stated that he had handled all the documents as had all the members of his staff. He stated further that he had retained copies of the documents. (Staples in documents apparently are not original staples he received.) To avoid any further contamination the documents were not examined by [redacted] in the Congressman's presence. The Congressman was asked if he would object to having his staff fingerprinted should it be necessary for elimination purposes. He said he assumed most of them or all of them had been fingerprinted because of their employment; however, he would have to consider further whether he would agree to having them fingerprinted again since he was not enthusiastic about such procedures. U

RECOMMENDATION:

That FBI Laboratory examine these documents for any information which might be of assistance and also process for latent fingerprints. Results should be furnished to General Investigative Division. (Original specimens hand delivered to the Laboratory.) U

"Citizens' Commission to Investigate the Federal Bureau of
Investigation," dated 3/18/71. U

This letter was furnished on 3/23/71, to SA []
[] by [] Administrative Assistant to GEORGE
MC GOVERN, United States (U.S.) Senator, South Dakota. Although
this document is a Xerox copy, according to [] it is the
original document received at the Senator's Office. U

[] advised all of the documents furnished by him
were received at the Senator's Office unopened through the
normal course of mail coming to the Senate Office Building.
The envelope was opened by the Senator's mail clerk; and there-
after, the documents were handled by about six persons in the
Senator's Office. [] stated he did not believe he has
ever been fingerprinted, nor most of the other persons handling
the materials. He stated there was no telephone call received
at the office prior to the arrival of the material regarding it. U

GENERAL INVESTIGATIVE DIVISION

Attached summarizes the current investigative situation with respect to the burglary of the Media, Pennsylvania, Resident Agency (RA). Additional evidence in the form of type-written samples, Xerox reproductions, etc., are being obtained for examination by the Laboratory and Xerox Corporation, Rochester, New York. Efforts are continuing to identify the woman walk-in who may have been casing the RA. Various sources indicate the Citizens Commission to Investigate the FBI will, next week, contact informants and sources identified in stolen FBI material seeking their refusal to cooperate further with the FBI. Failure to agree will result in exposing their names to the press. U

All involved sources and informants have been advised by the field as to their possibility of exposure. Philadelphia has realerted its sources in order that they will immediately notify FBI if contacted. Attorney General being advised. U

ADVISED INSTANT DATE THAT NEARLY ALL OF APPROXIMATELY FORTYFIVE DOCUMENTS EXAMINED BY XEROX EXPERTS THIS DATE APPEAR TO HAVE BEEN REPRODUCED ON A XEROX MODEL SIX SIX ZERO COPIER. PROPERTIES UNIQUE TO TONER USED IN SIX SIX ZERO MODEL ALLOW CONFORMATION OF THIS OPINION THRU CHEMICAL ANALYSIS IF TONER IS NOT XEROX PRODUCT DESIGNED FOR USE IN SIX SIX ZERO, XEROX CHEMICAL ANALYSIS WILL DETERMINE WHETHER IS A XEROX TONER DESIGNED FOR USE IN OTHER XEROX COPIERS. The above items were all furnished on 3/26/71 by a reliable confidential source. U

In reference to Item #1, all typing was done by the source on an IBM electric typewriter. Two available typing elements were used and samples can be distinguished by the apparent difference in style of type. Samples were obtained by the source from a typewriter in the office of Women Strike for Peace (WSP), 20 South 12th Street, Philadelphia, Pa.

Items 2 and 3 were retrieved by the source as discarded material from the office of WSP. U

Our interest in the address, 20 South 12th Street, Philadelphia, Pa., was furnished to the Bureau in referenced Philadelphia airtel 3/18/71. U

REQUEST OF BUREAU:

The Laboratory is requested to compare typing samples on Item 1 (both sides), Item 2, and Item 3 with typing samples on Q-1 and QC-2 to determine if same typewriter was used. U

The Laboratory is also requested to conduct the same examination of Items 1, 2, and 3 with Q-15, Q-33, Q-48 and any other pertinent questioned documents previously submitted in this case. U

The upper case typewriter impressions on Q91 are too limited to determine the make and model of the typewriter used in the preparation of these impressions. U

The limited nature of the comparable hand printing on Kc11 when compared with the questioned hand printing on the envelopes to Senator George McGovern and the Washington representative of the Los Angeles Times prevent any leanings as to whether the questioned hand printing was prepared by any of the individuals whose hand printing appears on Kc11. Classified by SP5 RJC/50
Declassify on: OADR 4-15-83
Appeal #80-1227

On 3-23-71 captioned, who claimed to be a Democratic candidate for President, telephonically contacted the Bureau and stated he was disturbed to learn FBI had "dossier" on him. He reportedly learned of this from one [REDACTED] who was staying in the Worcester, Massachusetts, Holiday Inn. [REDACTED] also maintained FBI contained a "criminal Irish Mafia" and employed too many Irishmen. Bufiles indicate one [REDACTED] Worcester, Massachusetts, was the subject of various Bureau investigations, including National Bankruptcy Act and Veterans Administration Matters. Bufiles further indicate [REDACTED] has in the past claimed to be Presidential candidate. [REDACTED]

Based on meager information given concerning [REDACTED] not possible to positively identify him by locale. Among numerous references in Bufiles under such name, there is one regarding a [REDACTED] subject of recent Selective Service Investigation and a conscientious objector registered with Media, Pennsylvania, local board. In view of the possibility that there may be a connection between the [REDACTED] mentioned by caller and the burglary of the Media, Pennsylvania, Resident Agency, Boston Office has been instructed to contact [REDACTED] determine full facts surrounding his statement and submit results of this contact by teletype directed to General Investigative Division. DETAILS

On 3-23-71, captioned telephonically contacted the Bureau and spoke to SA [redacted] of the Crime Research Section. [redacted] announced that he was a United States Democratic candidate for President and that he was most disturbed to learn that the FBI had a "dossier" on him. He stated that he learned of this from one [redacted] who was staying in the Worcester, Massachusetts, Holiday Inn. [redacted] stated that it would be political "whoredom" if the FBI had a file on him, and that he proposed to bring this whole matter to court. When asked to further identify [redacted] became quite evasive and he stated that we would have to deal with his "Chief of Security." The confidential nature of FBI files was explained to [redacted] and he was asked what led him to believe that [redacted] could possibly have access to FBI files. Again, [redacted] became quite evasive. U

[redacted] also maintained that the FBI contained a "criminal Irish Mafia" and stated that he refused to talk to SAC Handley of our Boston Office or, for that matter, anyone in the Bureau who was "an Irishman." In this regard [redacted] who became quite difficult to follow at times, claimed that the FBI was "criminal" because it employed more "Irishmen" than was justified on the basis of a fair ethnic distribution, which was in violation of equal opportunity. [redacted] vowed that upon election to the Presidency, he intends to survey every Government agency, particularly the FBI, to determine exactly how many Irishmen there are in Government. U

During the interview, captioned indicated he was going to tape record this conversation. Interviewing Agent indicated his opposition to this procedure and expressly pointed out illegal aspects of interception of communications. U

Bufiles indicate that one [redacted] of Worcester, Massachusetts, was the subject of a National Bankruptcy Act investigation closed in 1968 when prosecution was declined. In 1966, one [redacted] of Worcester, Massachusetts [redacted] was a subject of a Veterans Administration Matters investigation. In connection with this matter, civil suit was filed in U.S. District Court, Boston, Massachusetts, the case was heard, and in 1969 the judge ordered the matter be changed from a civil to a criminal action. The jury returned a verdict of not guilty. U

[REDACTED] Worcester, Massachusetts, a businessman who described himself as a Presidential candidate, in 1968 was the recipient of what he claimed was a threatening telephone call from a Worcester attorney. He was advised that a threatening telephone call originating within the same state does not constitute a violation of the Federal Extortion Statute. In his contact with us in this matter, [REDACTED] advised that he was making preparations to leave for Paris where he was to attend a peace conference. It was noted at this time that [REDACTED] had received considerable publicity in the Worcester press as a result of a large number of civil suits which he filed against the city of Worcester and various city officials. It is also to be noted that in connection with this complaint, [REDACTED] sent to the Worcester Resident Agency a copy of a so-called press release in which he demanded a Grand Jury investigation of, among other things, a death threat made to him and raised the question as to whether the FBI failed to act in this matter because of "political control." U

Bufiles also contain a 1968 item from a Montreal, Canada, newspaper/which revealed [REDACTED] spoke to a group of students and made numerous election promises of an extreme nature, such as that he would eliminate organized crime in 30 days, cut in half Federal taxes, and arrest and bring to trial "all conspirators who participated in the assassination of John F. Kennedy." It was reported that his oratory met with frequent laughter from the students. U

In 1970 information was received from the Department of State that one

[REDACTED] who [REDACTED] asked the State Department for information on [REDACTED] which he had offered. According to the letterhead on his stationery, [REDACTED] organization claimed to have assets [REDACTED] C [REDACTED]

Based on the meager information given by caller regarding [REDACTED] it was not possible to positively identify him by locale. However, among the numerous references in Bufiles, there is one regarding a [REDACTED] born [REDACTED] at Bryn Mawr, Pennsylvania, who was the subject of a recent Selective Service Investigation. (25-609421) This investigation started on the basis of a letter protesting the Vietnam war which was sent to the Attorney General 12-21-69 which contained portion of a selective service card allegedly belonging to [REDACTED] reportedly a Quaker and a conscientious objector who was reported delinquent by his Selective Service Board for failure to report for civil work 1-12-70. [REDACTED] draft board in Media, Pennsylvania, carried his resident address as [REDACTED] Bryn Mawr, Pennsylvania. On 12-12-70 an Assistant United States Attorney, Eastern District of Pennsylvania, declined prosecution since [REDACTED] was being reprocessed by his local board. U

Oh, Dat Ol' Debil-Man FBI... My, But He Surely DO Get Aroun'!

By Vin McLellan

These documents, facsimile copies of those stolen from the Media, Pennsylvania, office of the Federal Bureau of Investigation on March 8th by a group identifying itself as the Citizen's Commission to Investigate the FBI, were received by this paper last week in a packet of 13 internal F.B.I. memorandums. Although news stories detailing the content of these papers were published last week, the editors of the Phoenix felt that the significance of what these memorandums implied, in terms of the extent of political surveillance and the motivation which informs the government's intelligence apparatus, as well as the sketchy coverage granted these disclosures in the Boston media, demanded that we publish these, which we considered the most significant of the documents we received.

On March 23rd, last Tuesday, Attorney General John N. Mitchell issued an "urgent plea" to the press not to publish information from these papers, which had been mailed to a number of anti-war organizations, journalists and at least two members of congress, Sen. George McGovern (D. - South Dakota) and Rep. Parren J. Mitchell (D. - Maryland). The Attorney General stated at the time that disclosure of the "national defense information" contained in the papers "could endanger the United States and give aid to foreign governments whose interests might be inimical to those of the United States."

The story first broke in the Washington Post on last Wednesday morning. The Post, apparently having concluded that the information contained in the documents that had come into their possession was something less than "national defense information," ran a long and detailed article on page one. The ground broken, more or less detailed publication of the documents' contents followed in most of the major newspapers throughout the country over the next couple of days. The New York Times ran a front page story Thursday morning which, although less aggressively backgrounded than the Post article,

detailed the content of the packet of pilfered documents. The Boston Globe, which although it is tied into the Washington Post wire service, did not publish the initial article, Thursday morning ran the Post's follow-up story, which focused on Justice Dept. comments which attempted to put the revelations into a "softer" context. The headline for the Globe's page ten article was "US says files show FBI restraint," with an overline

noting: "1000 documents stolen, Justice Dept. reports." In that article it was reported that the Justice Department was claiming that the 14 documents which had been circulated by the thieves had been "carefully selected from among 1000 to create an impression of unwarranted or illegal methods being used by the FBI."

"Actually," the story quoted one Justice Department official as explaining, "a full examination of the stolen documents reveals the FBI showed restraint rather than overzealousness. They do excellent police work." Other Justice Dept. officials were quoted saying that the burglars obviously "intended to mislead a senator, a congressman and at least three newspapers (L.A. Times also acknowledged receipt) by sending them only reports that would seem to discredit Mr. Hoover's organization."

The Herald Traveler, which is tied into the New York Times wire service, chose not to run any of the initial articles on the documents which detailed widespread FBI snooping, opting instead to publish Friday a light-toned feature story from the Times wire service which focused on the plight of an Idaho boy scout advisor whose letter to the Russian embassy asking for travel advice for his troop's projected visit to the USSR turned up, oddly enough, among the FBI documents stolen from the Pennsylvania office. The front page jump headline read: "FBI Gets Around." The article

made no mention of the revelations about the evident pervasiveness of the FBI intelligence operation that virtually every other publication in the country which had published reports on the documents had focused upon.

The Phoenix received the packet of documents through a secondary distribution organized by Resist, a national anti-war resistance group based in Cambridge. Resist had received the packet by mail last Saturday, and forwarded the papers to this reporter on Wednesday. As far as can be now determined, in this area only Resist and Boston Globe peace-beat reporter Mike Kinney received copies of the documents directly from the Citizens Commission to Investigate the FBI. The story was broken in the local media by WBCN, which also received its packet from Resist, in a Wednesday evening special report. Globe reporter Kinney did not receive his packet by mail until Thursday, after the Globe had already published its Washington Post article under the "Files Show FBI restraint" headline. U

BLACK STUDENT GROUPS ON
COLLEGE CAMPUSES
RACIAL MATTERS
BUDED: 12/4/70

Increased campus disorders involving black students pose a definite threat to the Nation's stability and security and indicate need for increase in both quality and quantity of intelligence information on Black Student Unions (BSU) and similar groups which are targets for influence and control by violence-prone Black Panther Party (BPP) and other extremists. The distribution of the BPP newspaper on college campuses and speakers of the BPP and other black extremist groups on campuses clearly indicate that campuses are targets of extremists. Advance information on disorders and violence is of prime importance. We must target informants and sources to develop information regarding these groups on a continuing basis to fulfill our responsibilities and to develop such coverage where none exists.

Effective immediately, all BSUs and similar organizations organized to project the demands of black students, which are not presently under investigation, are to be subjects of discreet, preliminary inquiries, limited to established sources and carefully conducted to avoid criticism, to determine the size, aims, purposes, activities, leadership, key activists, and extremist

Interest or influence in these groups. Open individual cases on officers and key activists in each group to determine background and if their activities warrant active investigation. Submit results of preliminary inquiries in form suitable for dissemination with recommendations regarding active investigations of organization, its leaders, and key activists. These investigations to be conducted in accordance with instructions in Section 670 of the Manual of Instructions regarding investigations of organizations connected with institutions of learning.

Each office submit by airtel to reach Bureau by 12/4/70, a list of BSUs and similar groups by name and school which are or will be subjects of preliminary inquiries. This program will include junior colleges and two-year colleges as well as four-year colleges. In connection with this program, there is a need for increased source coverage and we must develop network of discreet quality sources in a position to furnish required information. Bear in mind that absence of information regarding these groups in any area might be the fault of inadequate source coverage and efforts should be undertaken immediately to improve this coverage.

A prior inquiry or investigation of a group or individual is no bar to current inquiries and inquiries should not be postponed until submission of airtel due 12/4/70. Initiate inquiries immediately.

I cannot overemphasize the importance of expeditious, thorough, and discreet handling of these cases. The violence, destruction, confrontations, and disruptions on campuses make it mandatory that we utilize to its capacity our intelligence-gathering capabilities.

Above instructions supersede instructions in Bureau letter to all offices 1/31/69, same caption.

NEW LEFT NOTES - PHILADELPHIA

9/16/70
Edition #1

This newsletter will be produced at irregular intervals as needed to keep those persons dealing with New Left problems up to date in an informal way. It is not a serial and is considered an informal routing slip. It should be given the security afforded a Bureau serial, classified confidential, but may be destroyed when original purpose is served.

The New Left conference at SOO 9/10-11/70 produced some comments:

In disseminating reports recommending for the SI it is preferable to designate and disseminate to Secret Service immediately and put the FD-376 (the back slip, to Secret Service) on the second Bureau copy.

There was a pretty general consensus that more interviews with these subjects and hangers-on are in order for plenty of reasons, chief of which are it will enhance the paranoia endemic in these circles and will further serve to get the point across there is an FBI Agent behind every mailbox. In addition, some will be overcome by the overwhelming personalities of the contacting agent and volunteer to tell all - perhaps on a continuing basis. The Director has okayed PSI's and SI's age 18 to 21. We have been blocked off from this critical age group in the past. Let us take advantage of this opportunity.

In payments to informants, if the total of services and expenses to an informant is less than \$300 in a lump sum payment or per month, our request for such payment is handled within division 5. If the lump sum payment or monthly authorization is \$300 or more, it must be approved on a much higher level. Note: If an informant is to travel outside our division and we initially go in and request expense payment of less than \$300, it can be handled simply while the services payment can be requested later based on what he has produced.

J. Connor

U

Editor's Note: The reference to PSI and SI in the "New Left Notes" document has been generally interpreted to refer to "paid student informer" and "student informer," respectively, although the Justice Department denies this. [The Justice Department, of course, refuses to offer any other interpretation of the abbreviation.]

Stolen Reports Reveal FBI Undercover Activities

By PATTI B. SARIS

Copies of stolen FBI documents, released to the press last Tuesday, reveal that the agency has been engaged in extensive surveillance of black, student, and leftist political groups.

The documents are copies of files stolen by an anonymous organization in a burglary of the FBI's Media, Pa. office on March 6. The FBI confirmed yesterday that the reports were authentic.

One document dated Sept. 16, 1970 concerning an FBI conference on the New Left urged more interviews with dissenting students:

"There was a general consensus that more interviews with those subjects and hang-ers-on are in order for plenty of reasons, chief of which are it will enhance the paranoia endemic in these circles and will further serve to get the point across there is an FBI agent behind every mailbox."

ENCLOSURE

J. Edgar Hoover, director of the FBI, was the author of another document dated November 4, 1970 which urged the "immediate" and "discreet" investigation of black student groups on college campuses:

"Increased campus disorders involving black students pose a definite threat to the nation's stability and security and indicate need for an increase in both quality and quantity of intelligence information on Black Student Union (BSU) and similar groups which are targets for influence and control by violence-prone Black Panther Party (BPP) and other extremists."

The 12 documents were anonymously mailed on March 18 to "Resist" — a national peace organization in Cambridge including among its members Noam Chomsky of M.I.T. — which subsequently gave the papers to the New York Times, the Washington Post, the Los Angeles Times, the CRIMSON and to Sena-

tor George S. McGovern (D-S.D.) and Rep. Parren J. Mitchell (D-Md.).

Attorney General John N. Mitchell asked late Tuesday night that the documents not be published on grounds that "disclosure of this information could endanger the lives or cause serious harm to persons engaged in investigative activities on behalf of the United States."

Mitchell had originally considered seeking a court order to restrain the media from publishing the documents but decided instead to make a personal request for "those who have received copies of the material not to further circulate it or publish it."

The Justice Department is presently engaged in sorting out the documents to see what information is dangerous in the files since the records include the identification numbers of agents as well as the names of people involved in the cases.

Other documents include investigations on

the activities of the Philadelphia Black Panthers, the National Black Economic Development Conference, two peace conferences, and dossiers on people marginally involved in the activities under surveillance.

One of the individuals being investigated — with the aid of a college switchboard operator — was a professor at a Philadelphia area college who was generally considered to be a "radical."

One FBI report demanded the investigation of all professors, students, and teachers who were in the USSR for at least one month to "identify them and determine whether any of them have been approached for recruitment by the Soviet Intelligence Services."

Another document provided a copy of the checking account of the National Black Economic Development Conference — information which is normally kept confidential.

On the basis of what is now revealed, Leonard B. Boudin, visiting professor of Law, said, "it is possible that professors or students or black groups could go to Law Court and secure an injunction against the FBI for invasion of their constitutional rights of privacy, association and political expression."

"This material indicates," he added, "that one of the purposes of the FBI is not just information but discouraging political activity."

She was then interviewed under the pretext that this news release apparently is being circulated in envelopes from this school. U

She then advised as follows:

The address of [redacted] Baltimore, is now occupied by five nuns of an order known as [redacted]. They are assigned here from [redacted] Maryland. The work they perform is not known specifically but is believed for the most part to be social work. Specific identities of these five nuns, who wear secular attire is not known. Approximately two weeks after [redacted] referring to [redacted] were arrested by FBI Agents in Baltimore, the five nuns [redacted] known to her as being active in some kind of a "defense committee" to prepare a defense for those charged in Harrisburg, Pennsylvania with conspiracy. They borrowed some envelopes from her, apparently to mail out some defense literature. Nothing else was borrowed. This school has a 3M duplicating machine, not a xerox. She does not believe the nuns [redacted] have a duplicating machine since they did not even appear to have sufficient resources to buy envelopes. She does not know the extent of their activities nor has she observed any "defense literature" from next door. U

By letter March 31, 1971, Assistant Attorney General Mardian, Internal Security Division, requested he be furnished data indicating the period of investigative time covered by the documents stolen from the Media, Pennsylvania, Resident Agency, March 8, 1971. He indicated this would not necessarily coincide with the dates of the documents taken, but rather the dates of the incidents or acts which were the subject of various investigative reports. He also requested a breakdown of the reports by subject matter; for example, Dyer Act, bombing investigations, etc. U

In a subsequent conversation with [redacted] Department Attorney assigned by Mardian to handle this case, on another matter [redacted] mentioned this letter and indicated he was not certain what Mardian had in mind when he made this request. He advised he would check with Mardian and inform us of the results. [redacted] subsequently advised that after talking with Mardian he was still not certain as to what data Mardian desired. Mardian told him he was interested in determining the lapse of time involved. U

If we were to comply with Mardian's request, it would be necessary to check the entire file pertaining to each stolen document (899) - not only in Philadelphia, but all auxiliary offices, in order to determine when the investigation was initiated and its current status. This would require a tremendous expenditure of time for no apparent reason. In certain security matters, for instance, investigations dealing with the Communist Party, USA, our investigation has been in progress over a long period of time and there would be no apparent value to the data furnished. We are in a position, however, to analyze the 17 documents which have surfaced thus far, copies of which have been furnished the Department. Many of these documents pertain to administrative-type data and not investigations as such. In analyzing ^{these} investigative items, the period of investigation ranges from May 20, 1970, to January 29, 1971. We can, of course, list the classifications involved in the stolen documents - 32 in all.

ACTION: Attached for approval is a letter to Assistant Attorney General Mardian advising him of the above and furnishing him available data on the 17 surfaced stolen documents. We, in addition, are furnishing him a list of the 32 classifications involved. U

ALSO SUBMITTED: Two photocopies each of Q94 and Q95

Result of examination:

The limited typewriter impressions on Q94 are all upper-case impressions and lack sufficient identifying characteristics to determine whether this material was or was not prepared on the same typewriter used to prepare Qc2. Q95 is not sufficiently legible for a detailed typewriter examination. However, it was noted that the typewriter impressions on Q94 and Q95 are the same style of type as the typewriter impressions on Qc2, previously submitted in this case. U

No watermarks, indented writing of value or other marks which would indicate the immediate source of this material were noted on Q94 or Q95. The stamp on Q94 is from a roll of stamps. U

Q94 will be returned separately. Q95 is being forwarded to the Resident Agency, Rochester, New York, with a copy of the Buffalo report. The "ALSO SUBMITTED" material is retained at the Bureau. Photographs have been made. U

Item #4: Photocopy of a memorandum dated 6/18/70 to "SAC, (157-3852) (P)" from "SA THOMAS F. LEWIS," subject "National Black Economic Development Conference, RM," ending "statements reveals the balance in this account has ranged." U

Above items were furnished by an established source on 3/24/71. U

For information of the Bureau, MUHAMMAD KENYATTA, National Vice Chairman, National Black Economic Development Conference, held press conference 3/24/71, and distributed to those present the four items described above. U

REQUEST OF THE BUREAU:

1. The Laboratory will compare typing samples on Item #1 with typing samples on Q-1 and Qc-2 to determine if Item #1 was prepared on the same typewriter as either Q-1 or Qc-2. U

2. Will conduct the same examination of Items #2 through #4 which the Laboratory is conducting on stolen FBI material which was turned over to FBI by Senator GEORGE S. MC GOVERN and Representative PARREN J. MITCHELL. No request is being made for examination for latent prints in view of manner in which these items were handled at the press conference at the time they were distributed. U

In reference to the above-captioned matter, copies of 744 items stolen from the Resident Agency in Media, Pennsylvania, have been forwarded to the Department. There are 163 items that cannot be located as the only available copies were in the Media Resident Agency. This group consists primarily of routing slips, recent interview report forms not yet in file and other forms. No copies of this data are maintained either at Philadelphia Headquarters or at the Bureau. Many of these documents would normally be destroyed after their usefulness has been served. Thirty-three of the items forwarded to the Department have since been determined as not stolen. Attached to this letter is a list of the items identified as not stolen. *U*

REC-83 52-94527-378

Our Philadelphia Office is in the process of obtaining 25 additional items reported stolen, which items consist mainly of letters to or from the United States Attorney's Office in Philadelphia and arraignment lists and copies of indictments. As soon as these items are obtained, copies will be forwarded to your office. *U*

The above is for your information.
